Objective: To obtain a position as a full-stack web developer within Connecticut.

EDUCATION

UCONN Coding Boot Camp   Feb '20 - July '20
Certificate in Full-Stack Web Development,
expected late July 2020

New York University College of Arts and Sciences   Sept '14 - May '18
GPA 3.3 || Bachelor of Arts in Economics

WEB DEVELOPMENT PROJECTS

All for One (Reddit Clone Project): Full-stack web project incorporating user accounts, user posts, and user comments, built on an Express.js server and the Sequelize.js ORM to handle database interactions. I incorporated a fully-functional upvote/downvote system that tied the vote to the user & post.

Local COVID-19 News & Data App: Uses jQuery AJAX calls to dynamically populate HTML with articles from OpenNewsAPI and data from COVID API based on user's current location or search inquiry.

(Each were group projects by a team of three, including myself)

SKILLS

- HTML; semantic HTML5
- CSS; Bootstrap; Materialize
- JavaScript ES6
- jQuery
- NodeJS
- DiscordJS

- ExpressJS
- Handlebars
- MySQL 8; SequelizeJS ORM
- MongoDB, MongooseJS
- Git; Git branching
- Adobe Creative Cloud

WORK EXPERIENCE

Oronoque Eye Care   Stratford & Waterbury, CT
Patient Service Coordinator   Sept. '18 - Oct. '19

- Schedule patients between three optometrists, up to 6 patients per hour but while ensuring doctors will not be overbooked and patients will not be kept waiting
- Keep track of patient flow, moving them in and out of rooms as quickly as possible during busy times
- Trained new employees in all of the above responsibilities, both new to optometry and experienced
- Wrote a 16-page in-depth how-to guide for all responsibilities of the Patient Service Coordinator in preparation for my leaving

Freelance Photography   New York, NY
Self-Employed   Feb '17 - June '18

- Independently worked hundreds of hours shooting and editing photos for events/event promotion, minor commercials, individual portraits, behind-the-scenes of film shoots, cosplay, moving cars, etc.

LiveWellNYU   New York, NY
Video Production Intern   May '17 - Dec '17

- Collaborated within team of four interns to produce low-budget video shorts that promoted student mental and physiological health for NYU students.
